PWG II

Pulse wave generator
Finding pipes under difficult conditions

LOCALIZATION OF ALL TYPES OF PIPES

PIPE SECTIONS DETECTABLE FOR UP TO 600 METRES

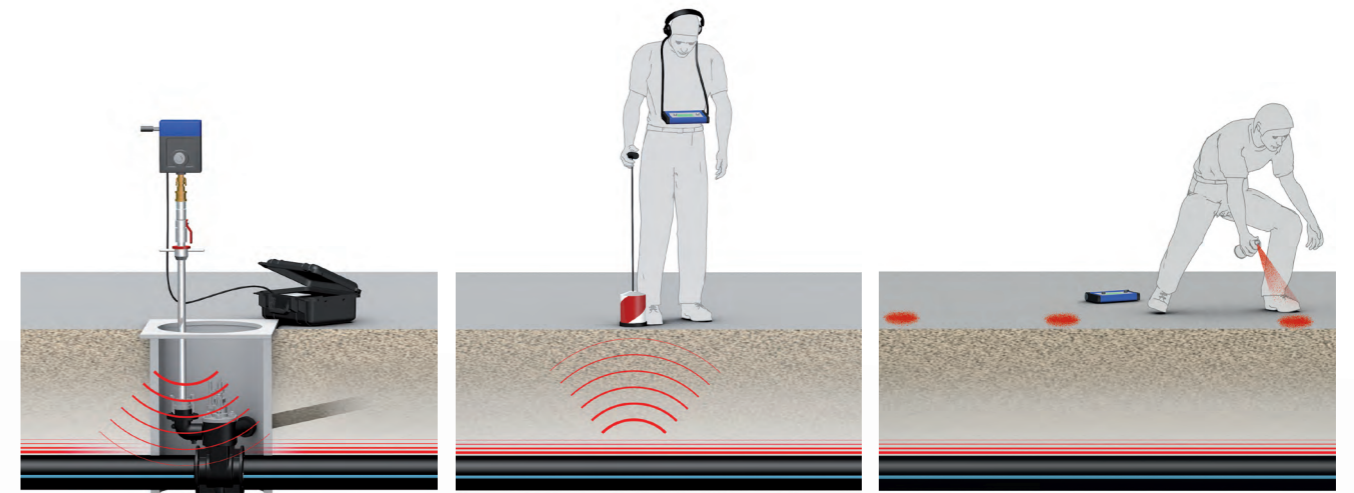

OPERATES FROM A MINIMUM PRESSURE OF 2 BAR

SIMPLE INSTALLATION THANKS TO GEKA QUICK COUPLER

EQUIPMENT

APPLICATION

- The PWG is attached to a hydrant or to a in-house installation
- An acoustic pulse travels along the pipe
- The pulse is detected with listening devices of the Aqua M series (page 36-47) and with the ground microphone
