Searching a pipe under aggravated circumstances

LOCATING ALL KINDS OF PIPE

PIPE SECTIONS DETECTABLE FOR UP TO 600 METRES

OPERATES FROM A MINIMUM PRESSURE OF 2 BAR

SIMPLE INSTALLATION THANKS TO GK QUICK COUPLER

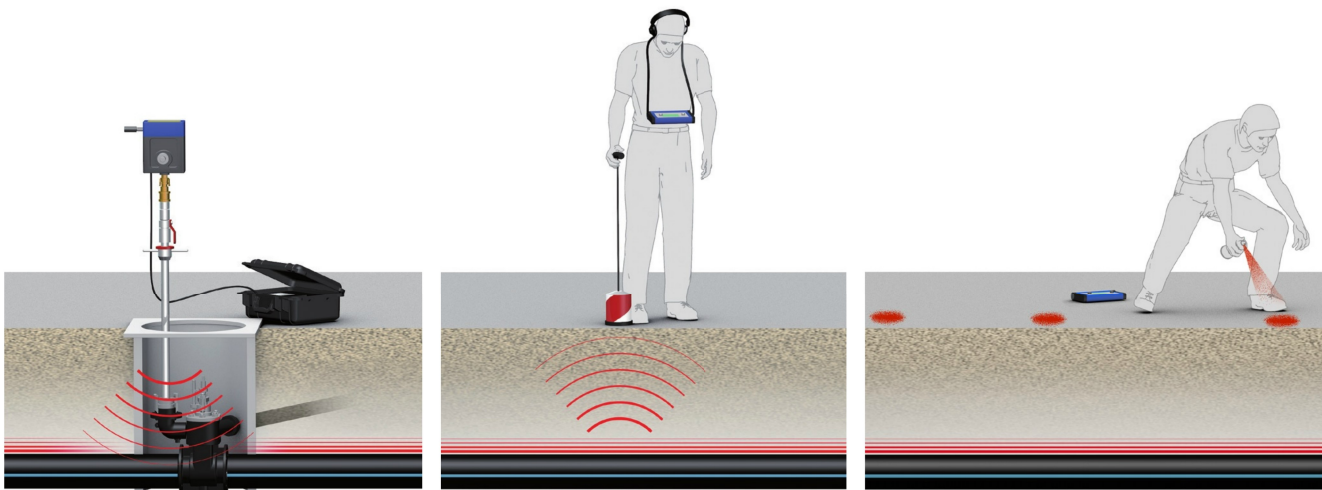

**FAST**  
GROUPE CLAIRE

STANDARD SOLUTIONS

 EQUIPMENT

 APPLICATION

- The PWG is attached to a hydrant or to a in-house installation
- An acoustic pulse travels along the pipe
- The pulse is detected with listening devices of the Aqua M series (page 36-47) and with the ground microphone
